ABOUT ME

I am a creative and innovative full-stack developer with a strong background in frontend and backend technologies. I specialize in creating dynamic, user-friendly applications that run well on both mobile and web platforms.

PROFESSIONAL EXPERIENCE

**Personal Projects | 2024–Present**

I’ve worked on several personal projects, some of which I have listed out in the portfolio website attached to this resume. These projects included fully functional e-commerce website, landing page, Investment websites, et cetera almost ready for full production and real-time user base

These projects have enhanced my skills and hands-on experience following best practices, and I’m looking forward to building more robust, relevant and on-demand web applications, while also learning and building up my skill.

**Freelance Projects | 2025–Present**

I have also had the privilege of working with some clients as a freelancer, developing their custom applications and bringing their ideas to live on net.

This experience has fostered the good skill of effective communication, time management and customer support relevant to my field of expertise.

EDUCATION

**Alumnus**

Studied at St. JohnBosco Seminary, Isuaniocha, Awka, Nigeria where I read and completed my secondary school education.

**Prospective Student | Nnamdi Azikiwe University**

Aspiring Electronics and Computer Engineering student (Application for next academic session submitted)

SKILLS

**Languages**

Typescript, JavaScript, HTML, CSS, SQL

**Frameworks/Libraries**

React, NextJs, tailwindcss

**Tools**

Git, GitHub, PostgreSQL, Supabase

**Miscallaneous**

Responsive Design, REST APIs, SEO best practice.
